

Leningrad  
19/X/1930.

Very esteemed Prof. Bolivar,

As I am studying at present the palaearctic species of *Gomphoceris* Thunb. for the use of preparing a revision of this genus, it is for me very necessary to study also after original specimens *G. escaleraei*, described by Mr. Ignacio Bolivar in ~~1899~~ 1899 from Minor Asia. Therefore I beg you to send me if possible, specimens of this species for my studies. If it were impossible, be so kind to let me know about that and about following: Is after your opinion *Gomphoceris escaleraei* a good representant of genus *Gomphoceris*, or not. I will be very much obliged to you for your help.

Yours sincerely S. F. Jarbinsky,
